🌱 FuV - Now digital & as a best-of print at the end of the year

Our organisation magazine 'Fragen und Versuche' (FuV) is now published digitally three times a year - faster, more flexible and readable everywhere! At the end of the year, there will be a printed best-of edition with the most exciting articles.

FuV has been the voice of Freinet pedagogy since 1977. By members for members and Freinet sympathisers - with experiences, ideas and discussions about reform pedagogical practice. Diversity that inspires. Help shape the FuV: Share your experiences, ideas and creative impulses. In this way, it remains the lively forum for our joint work.
